## TECHNICAL SKILLS

**AI / GenAI:** LLMs, RAG, Agentic AI, Function Calling / Tool Use, Prompt Engineering, Vector Embeddings, Semantic Search, Multi-turn Conversational AI, Document AI / IDP

**AI Platforms & APIs:** Azure OpenAI, Azure AI Studio, AWS Bedrock, AWS SageMaker, Hugging Face Inference, Anthropic Claude API, OpenAI GPT-4, LangChain

**Languages:** Python, TypeScript, JavaScript, SQL, HTML/CSS

**Frameworks:** Next.js 14 (App Router), React, Node.js, FastAPI, Tailwind CSS, Cypress

**Databases & Infra:** PostgreSQL, Supabase, Vercel KV (Upstash Redis), Vector Databases, REST APIs, Git/GitHub, Vercel, Docker

## PROFESSIONAL EXPERIENCE

**GenAI Developer (Associate Apprenticeship)** | PricewaterhouseCoopers (PwC) Jun 2025 – Present · Hyderabad · Hybrid

- Develop production-grade Generative AI applications for enterprise clients using Azure OpenAI, AWS Bedrock, and Hugging Face Inference APIs.
- Design and implement RAG pipelines integrating Azure AI Search, vector embeddings, and LLM-based response generation.
- Build agentic AI workflows using function calling and tool-use patterns to automate document processing, classification, and information extraction.
- Apply prompt engineering best practices to optimize LLM accuracy, reduce hallucinations, and minimize token costs across deployed solutions.

**Quality Assurance Engineer Intern** | Amazon Jan 2025 – Jun 2025 · Gurgaon, Haryana · On-site

- Automated 10+ regression test cases using Cypress (TypeScript) on a scalable framework integrated with Git and Brazil, reducing test cycle time by 10%.
- Performed manual and automation testing including API testing with GraphQL; designed comprehensive test cases and maintained detailed documentation.
- Collaborated with cross-functional teams to triage and resolve 10+ critical UI/API issues; increased test coverage from 30% to 40%.

**Machine Learning Intern** | Atharvo Jul 2024 – Aug 2024 · Remote

- Implemented and trained ML models for image recognition using PyTorch and TensorFlow; performed data preprocessing and model evaluation.

## FEATURED AI PROJECTS

**DocuMind — Intelligent Document Processing with RAG** — Next.js · TypeScript · Hugging Face · Vercel KV · pdf-parse 2026

- Built end-to-end RAG system with PDF/DOCX chunking, vector embeddings (all-MiniLM-L6-v2), cosine similarity retrieval, and LLM-grounded responses with source citations.
- Implemented 5 AI document operations: structured field extraction, classification, summarization, semantic Q&A, and intelligent processing routing.

**SnipURL — Agentic AI URL Shortener with Function Calling** — Next.js · TypeScript · Supabase · JWT · bcrypt · Hugging Face 2026

- Designed agentic AI assistant using function-calling pattern (list, search, create, delete, get\_stats tools), enabling link management via plain English commands.
- Built full multi-user authentication from scratch (bcrypt, JWT cookies, 30-day TTL); added AI auto-slug generation, title extraction, and link analytics.

**FormCraft — Conversational AI Form Builder** — Next.js · TypeScript · Supabase · JWT · Hugging Face 2026

- Built conversational form-filling chatbot that asks questions one-by-one, extracts structured data from freeform English, and validates against field types.
- Engineered AI form generator (plain-English → 6-10 production-ready fields) and AI response analytics with sentiment + theme extraction.

## CERTIFICATIONS

- AWS Certified AI Practitioner — Amazon Web Services
- AWS Certified Generative AI Developer (Professional) — Amazon Web Services
- AWS Certified Machine Learning Engineer — Associate — Amazon Web Services
- [Claude Certified Architect](#) — Anthropic
- [Streamline Application Development with Gemini CL](#) — Google

## EDUCATION

**Bachelor of Technology (B.Tech) — Computer Science Engineering** Nov 2022 – Jul 2025

Dr. A.P.J. Abdul Kalam Technical University, U.P. · SGPA: 7.8/10 · Coursework: DSA, ML, DBMS, OS, Software Engineering

**Diploma — Computer Science & Engineering** Jul 2019 – Jun 2022

Mahamaya Polytechnic of Information Technology, Hathras · BTEUP · Aggregate: 72.9%
